To whom it may concern,

By this letter, I want to support the proposal submitted by Prof Rose Finn entitled "Probing Gas in Virgo Filament Galaxies". If it is selected for funding by NSF, it is my intent to collaborate and/or commit resources as detailed in the Project Description or the Facilities, Equipment or Other Resources section of the proposal. In particular, I will continue to observe all the filaments galaxies in CO and HI.

With best regards,

Françoise Combes
